EDUCATION

B.SE
Universidad Icesi - Colombia
Software Systems Engineering

WORK EXPERIENCE

- 06/16 - 06/18 **Universidad Icesi**
Algorithms and programming 2 and 1 teaching assistant.
Helped the teacher with tasks associated with the course and guided every laboratory session.
- 06/18 - 12/18 **We Are Angular**
Backend Developer + AWS - Freelance.
Backend developer for a mobile application, using JavaEE, Spring framework, SQL. In charge of the support and maintenance of the infrastructure in AWS, using services such as Lambda, EC2, S3, Cloudwatch, RDS.
- 05/18 - 07/19 **DrillApp S.A.S**
Software Developer - Freelance.
Full-stack software developer for a product called Pitia, an oil statistics software built-in Java EE + MongoDB + React. I also worked with IBM services such as Cloud Foundry, IBM Git, CI/CD services.
- 11/18 - 05/19 **PSL Corp**
Internship Software Engineer.
Software Engineer for an internal application called "PSL Assistant", an artificial intelligence chatbot that helps the workers of the company in many things such as report time, reserve rooms, and meetings sessions. Knowledge acquired in NodeJS, MongoDB, Angular, AWS, and CI/CD tools.
- 05/19 - 02/21 **Perficient Latinoamerica (Formerly PSL Corp)**
Software Engineer.
Software Engineer for a US client in the business of Healthcare. The project was in development using Java 8, Spring Boot, CloudSQL, Spanner, Maven, and other technologies. I worked with microservice architectures following high-quality standards. In charge of building new Terraform Modules for Apigee in Golang. Reinforced knowledge: Golang, Terraform, Google Cloud Platform, Spanner, Spring framework, Apigee, and CI/CD tools.
- 02/21 - Present **VMWare**
Software Engineer.
Software Engineer II. Member of Tanzu MAPBU Buildpacks team, working with Cloud Native Buildpacks and contributing to open source projects in the Paketo Buildpacks community (Cloud Foundry Project) <https://tanzu.vmware.com/components/buildpacks>
<https://paketo.io/> <https://buildpacks.io/>

TECHNICAL SKILLS

- Java
- JavaScript / NodeJS
- Golang
- Cloud (AWS, GCP, IBM)
- Maven / NPM
- Spring Framework
- Terraform
- CI / CD (Jenkins, CircleCI, TravisCI, Github actions)
- SQL / NoSQL

Languages: Spanish (Native), English (Professional working proficiency).

Platforms: OS X, Windows, Linux.

SOFT SKILLS

I consider myself a pretty proactive person, always looking for, and learning new things every day. I am a person who adapts quickly to new environments and seeks solutions to problems without waiting for someone else to solve them for me. I have excellent teamwork skills and have experience working with large-size teams (15) using agile methodologies.

AWARDS & CERTIFICATIONS

Qualified for ACM/ICPC Latin America North regionals - 2016
One of the Colombian best ECAES (national education test) - 2018
AWS Academy Graduate - AWS Academy Cloud Foundations - 2018

OTHER ACTIVITIES

I am interested in competitive programming and the solution to any kind of problem through the implementation of technologies.
Geek and gamer in my free time.
